

KRISHNA SRINIVAS MADHIRA

AI Engineer | Machine Learning Specialist | Agentic-AI Developer

Email: krishnasrinivasmadhira@gmail.com | Phone: +91 9866430481

LinkedIn: [linkedin.com/in/krishnasrinivas-](https://www.linkedin.com/in/krishnasrinivas-) | GitHub: github.com/KrishnaSrinivas-24 | GoogleDev: g.dev/krishnasrinivas-24

PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence & Machine Learning at GITAM University. Experienced in AI development, RAG systems, multi-agent workflows, and full-stack applications, with internship experience at IBM Skills-Build, CODTECH IT Solutions, and Madtown. Skilled in Python, React, Fast-API, TensorFlow, and cloud technologies, with a strong focus on building scalable AI-driven solutions.

EDUCATION

Bachelor of Technology - Computer Science Engineering (AI & ML) 2023 - 2027

GITAM (Deemed To Be University) | Visakhapatnam, India Expected Graduation: June 2027 – 8.8 CGPA

Intermediate (MPC) - Mathematics, Physics, Chemistry 2021 - 2023

Sri Chaitanya College of Education

EXPERIENCE

GitHub Technical Expert June 2026 - Present

GitHub Community - GITAM University | Visakhapatnam, India

- Lead technical club activities, conducting workshops on Git, AI/ML, and open-source contribution best practices
- Promoted from AIML Member (Sep 2025) after receiving Best Participation Award (2025-2026)

AI Generalist Intern March 2026 - Present

Madtown | Hybrid

- Designing and executing intelligent event-matching systems for the campus social and discovery platform
- Engineering hybrid AI features combining recommendation engines with user behavior analytics

AI & Cloud Intern July 2025 - Aug 2025

Edunet Foundation (IBM SkillsBuild Program) | Remote

- Completed 4-week virtual internship focusing on AI and cloud computing technologies
- Developed AI projects integrating models with cloud deployment pipelines using IBM Watson and IBM Cloud

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C++, SQL

AI/ML Technologies: TensorFlow, Scikit-learn, NLP, RAG, FAISS, LangChain, Langfuse, OpenCV, Pandas, NumPy

Web & Frameworks: React, Next.js, FastAPI, Node.js, Express.js, Firebase, Streamlit, Google AI Studio

Cloud & DevOps: Google Cloud Platform, IBM Cloud, Docker, PostgreSQL, Git/GitHub

KEY PROJECTS

Vyuha-Mind - Autonomous Multi-Agent Strategy Simulator

Python, FastAPI, React, Gemini, Grok | Multi-Agent AI System

- Engineered a multi-agent AI architecture simulating market dynamics and investor sentiment in real-time
- Implemented deterministic fallbacks to guarantee robust, uninterrupted 12-second simulations

FloatChat - RAG Text-to-SQL Oceanographic Platform

React, FastAPI, PostgreSQL, pgvector, Docker | Smart India Hackathon 2025

- Developed a scalable RAG pipeline over global Argo Float telemetry using pgvector and FAISS
- Orchestrated a production-ready Docker Compose environment with interactive maps and Plotly visualizations

SchoolSnap - Biometric Parent Photo Portal

Python, FastAPI, FAISS, React, Docker | Production System

- Built production-grade biometric portal where parents scan/upload selfies to retrieve event photos using FAISS vector search
- Engineered a containerized 4-container microservices architecture for scalable deployment

CampusPulse - Gamified Campus Event Ecosystem

Next.js 15, React Native, Firebase, Tailwind CSS | Cross-Platform App

- Designed cross-platform gamified event ecosystem with frictionless QR ticketing and real-time event discovery
- Engineered zero-latency event sync and complex NoSQL schemas using a synchronous monorepo architecture

ACHIEVEMENTS & CERTIFICATIONS

- Google Cloud Arcade Champion (2025): Successfully completed cloud-based challenges and earned skill badges
- Smart India Hackathon: Qualified for SIH 2025 as Lead Developer for FloatChat
- Best Participation Award: Recognized for outstanding contribution to GitHub Community GITAM (2025-2026)
- Certifications: Google Cloud Computing Foundations, Prompt Engineering (Vanderbilt), Generative AI (Google Cloud), Front-end Development (Meta), Git & GitHub (Google), Looker Studio (Google)
